

Made in the
United States of America

Description

- Trigger spray nozzle - Spray, Stream and Off settings
- Promotes ESD control awareness
- Provides controlled delivery of solvents, cleaners, water, and oils
- No Migratory Additives - reduces the chance for contamination from the bottle
- LDPE durAstatic bottles are dissipative; electrostatic charges are removed to ground when handled by a grounded operator or in contact with ESD worksurface
- Highly visible with ESD protective symbol, allowing people to immediately know the bottle is ESD protective
- 8 ounce (237 mL) Bottle

Specifications

Bottle volume resistance $1 \times 10^4 < 1 \times 10^{11}$ ohms per ANSI/ESD STM11.12
Meets ANSI/ESD S20.20 and EN 61340-5-1

Note: Trigger spray head is insulative

35377	durAstatic, Dissipative, Yellow Bottle Trigger Spray, 8 oz. (237 mL)
--------------	--

“It should be understood that any object, item, material or person could be a source of static electricity in the work environment. Removal of unnecessary nonconductors, replacing nonconductive materials with dissipative or conductive materials and grounding all conductors are the principle methods of controlling static electricity in the workplace, regardless of the activity.” [ESD Handbook ESD TR20.20 section 2.4 Sources of Static Electricity]

If not otherwise noted, tolerances $\pm 10\%$
